I would like to nominate Jayne McQuillen for the Board of Directors. I met Jayne several years ago at an introduction to flyball event. Jayne and her team had driven a couple of hours to help put on this event. As I listened to Jayne explain what flyball is, it immediately became clear that Jayne has a true love and passion for the sport.

Over the last several years, I have seen Jayne use her love for the game to make flyball more accessible in her community. She has offered her knowledge and skills to many as a mentor. I have seen her put her heart and soul into helping every dog and handler team that crosses her path become the absolute best they can be.

While Jayne is a fierce competitor in the ring as a Regional Director, she is approachable. She listens to the concerns and suggestions of the region and works to find answers and solutions. She has proven to be fair and level-headed in her decision making. Jayne has the ability to bring out the best in those around her. I believe combining that skill with her passion for flyball and its community would make Jayne a wonderful asset to the NAFA Board of Directors.

Best Regards,

Mackenzie Maidl
