**Delegate Vote Proposal:**

Wording provided:

*"Introduction: In an effort to revitalize the multibreed class, the board is presenting a proposal for consideration by the delegates that would increase the NAFA title points earned in the multibreed class. If adopted, the following change would become effective October 1, 2012.*

*Question for delegate vote: Should NAFA amend the point-count rules for the multibreed class so that each dog on a team that runs with a recorded time less than 24 seconds earn 30 points; from 24 to 27.999 seconds earn 7 points; and from 28 to 31.999 seconds earns 2 points?*

*Pros: This increase is designed to recognize and reward the comparative difficulty of assembling a multibreed team where every dog running is of a different breed, counting a mix as a single breed. Of all the classes, multibreed perhaps does the most to stimulate interest in flyball because people who have dogs at home can identify with the variety of breeds running and visualize doing so with their own dog.*

*Cons: This proposal cheapens the points earned by dogs who run with clubs not able to field multibreed teams and makes titles too easy to get. There should be one point system for all."*

Curtis moved to adopt the language as written for the delegate ballot. Nancy seconded the motion.

Karen proposed a friendly amendment striking the first sentence in the introduction. The friendly amendment was not accepted.

Dana expressed that the actual language from the rulebook should be included in the wording. Discussion followed.

Karen called the question.
