

**Highlights of the January 26, 2026
NAFA Board Meeting**

1. Caroline Studley promoted from Provisional to Approved judge
2. Frantic CRN 200123 - aggression excusal removed pursuant to Section 5.8(f)
3. Host clubs will now need to submit a photocopy of the signed C.9 measuring sheets electronically when they submit tournament results. Height measurements will still be entered online, but this will preserve a backup copy of the completed form.
4. Reminder about height dog measuring:
 - a. All dogs running as height dogs must be measured.
 - b. Dogs **15 months to 24 months** in age may obtain a **Temporary Measurement** by receiving one (1) NAFA Recorded Measurement.
 - c. Dogs **24 months** in age or older may obtain a **Permanent Measurement** by receiving two (2) NAFA Recorded Measurement from *two different judges* that set the *same jump height*. Both measurements must be after the dog turns 2 years old.
 - d. To verify your dogs has the required measurements, check in the NAFA database for your dog's CRN under the "Measurements" tab. If the dog has the required measurements you will see language:
 - i. *This dog has obtained a Permanent Measurement (jump height #) and is exempt from mandatory measuring*
 - ii. *This dog has obtained a Temporary Measurement (jump height #) and is exempt from mandatory measuring before (date turns 2 years old)*
 - iii. *If the dog was born before 10/1/2012, you'll see: Dog is exempt from mandatory measuring because birthdate is on or before 2012-10-01*
 - e. If the dog does not have the required measurements, the dog will need to be measured to run as a height dog.
 - f. A list of all dogs with permanent & temporary measurements (sorted by CRN, Club, or Region) appears on the front of the NAFA Database at:
https://flyball.org/database/report_permanent_measurements.php?sortBy=crn
